

BEST AT TARGET FIRE

Benton Harbor Division at the Front.

Lieut. Sweet a Bird of a Shot.

Reserves Started for Detroit Today.

By Telegraph to Evening News.

Mackinac Island, July 14.—All day yesterday the naval militia were given instructions and practice in firing one, three and six pound guns from the deck of the gunboat Michigan. The Benton Harbor division were credited with making the best record, and the best individual shots were made by Lieutenant Sweet.

After the gun practice our men manned the boats of the ships and were given instructions in rowing and sailing them, which afforded them much pleasure. The cruise this year thus far exceeds that of last year in practical instruction and enjoyment as neither the Michigan or the Yantic are crowded. There is not a single occasion for any unpleasantness or complaint and all of the boys are more than satisfied.

Several amusing incidents have occurred. Currier ate thirteen eggs for breakfast this morning and then offered to eat five more.

While getting into a boat yesterday Hemingway accidentally struck Currier on the nose with an oar, causing that member to flow copiously, and it is somewhat increased in size today.

A. F. Schoelitz, the proprietor of the Benton Harbor bicycle works, has been assigned to the engineer's department on the Yantic. Lieut. Sweet has been ordered to return to Detroit on the Yantic as that ship needs his services. C. K. Farmer will have charge of the fourth division on the return trip to Detroit on the Michigan.

The boys are talking of giving the officers and crew of the Michigan a reception at Benton Harbor in the near future.

Much amusement is had when petty officers have their turn out at night to stand their watches. Zekind got up last night and did not wake until he was hoisting ashes. Rowe walks in his sleep.

The revenue cutter Fessenden arrived yesterday. We leave early this morning for Detroit and will touch other ports en route.

There was a grand ball at Grand Hotel last night and all the boys were ashore. C. K. Farmer.

MAN HAS DISAPPEARED

Excitement in Eau Claire Over The Matter.

Eau Claire, July 14.—A man named Ham E. Dolliver organized a lodge of Modern Brothers of America here last month. He was well dressed and evidently had considerable money. He left the village June 22. His friends have heard nothing of him since and are now investigating the matter. It is feared that he has met foul play.

TWO BAD MEN

Robbed Coloma Drug Store and are Captured.

Late last evening two hobos who have been picking berries near Coloma, entered Baker's drug store in that village and asked to get treated for a bottle of whiskey. They were refused and left the place. Later in the night they demolished the glass in the front door, entered the store, stole \$5 from the money drawer and slot machine and three bottles of whiskey, and not being satisfied and wanting to get even with the druggist, they took bottles from the shelves and threw them in the street.

Deputy Sheriff John Humphrey was notified and soon had the men. They were brought to this city this morning.

MASONIC EXCURSION.

It Will Go to Milwaukee Instead of St. Joseph.

Saturday, July 23, was the day set apart for the big Masonic excursion, the place St. Joseph and Benton Harbor. The date has not been changed, but the place has and Milwaukee will Milwaukee will have the pleasure of entertaining the 25,000 strangers.

Over 4,000 tickets had been sold for St. Joseph when it was found by conferring with the Graham & Morton people that the could not change the running schedule of their boat to suit the excursionists and a change was made to Milwaukee, and the Christopher Columbus and Virginia will carry the crowd.

Only Masons, their wives and families and such as they only will vouch for can take in the excursion. The "High Sea Degree" will be worked by special "trade" of the "Terrible Turk," at 12 o'clock at mid-ocean, for the first time in American waters. Nothing is equal in Mohammedan Masonry ever before given.

Van Horn's Position.

EDITOR EVENING NEWS: Whereas, it has come to me from the most reliable sources that H. I. Jarvis says that my opposition to his nomination for congress is, that I am a candidate for the post office in the event of Mr. Bryan's election, to me this is far-fetched. I thought that it was publicly known that I was only a candidate for one of two offices, namely, justice of the peace of this city or supreme dictator of the earth, and I hereby give public notice to all democrats looking for soft jobs that I am not a candidate for the Benton Harbor post office when Mr. Bryan is elected, as he surely will be. WIFE RELENTING.

PHILLIPS MAY GO WITHOUT PUNISHMENT.

It is now pretty evident that ex-Mail Carrier Phillips will go unpunished. His wife, the abused woman with the five little children who caused his arrest is a constant visitor at the county jail and sits in his cell by the hour, much to the disgust of people who know all the circumstances in the case. Mrs. Phillips accompanied by the youngest child, a baby four months old, spent several hours with her husband night before last and again last night.

The neighbors who have helped feed the Phillips family the past winter, declare that if Mrs. Phillips does not push the case she is not deserving of the sympathy which they have shown her.

It is understood that it was at her request that the examination was postponed from yesterday to next Wednesday.

AN ARTISTS' SCHOOL

Has Been Opened in This City to Teach Photography.

A. A. LaClear, an artist in all the word implies, has located in this city a new line of business, being none other than a school in photography, where one desiring to learn the business and become a full fledged photographer can attend, graduate and secure a diploma.

There are very few schools of this kind in existence and Mr. LaClear will undoubtedly be well patronized. The studio is located on Cherry street and is furnished with every instrument for making all sizes of photographs as well as plain or tinted portraits, hand painted on porcelain, miniatures on ivory, water color and crayon finish.

The studio is furnished in an exquisite manner, is cool and comfortable and possesses the proper light arrangements so material to a good artist as well as to a good picture.

BENTON FOR RACKLIFFE

Mr. Rackliffe Named the Delegation.

Caucus Largely Attended in Heat

Buchanan Supports Dodd for Register.

The republican caucus in Benton township was held this afternoon in the Benton town hall and was called to order by W. A. D. Rose.

Notwithstanding the heat the hall was crowded and it was infernally hot inside.

H. A. Rackliffe was magnificently supported for register of deeds and was allowed to select his own delegates, an honor that has been accorded but few candidates in the present campaign.

Mr. Cunningham asked how Mr. Rackliffe stood on the other candidates and the candidate made a speech and then the motion to allow Mr. Rackliffe to nominate his own delegates was carried without a dissenting voice.

The delegates chosen by Mr. Rackliffe are: J. W. Worthington, John Dowling, John C. Lawrence, F. M. Whitbeck, W. A. D. Rose, S. L. Van Camp, L. M. Ward, Seward Shodon, E. S. Whitney, R. C. Thayer, Seely McCora, H. A. Rackliffe, Ed McCullough, Roland Morrill, D. S. Vaughn.

Dodd Captures Buchanan.

The Buchanan caucuses were held this afternoon. There were two candidates for register of deeds in Buchanan: Leroy Dodd and S. Barmore. The two candidates had an agreement that they both select a list of delegates and submit the list to the caucus.

The list receiving the majority of votes would declare who the candidate would be.

The caucus was held in the opera house and Dodd's list was elected by a vote of 14 to 5.

FATE OF M. DE GIERS

Russian Envoy at Peking Meets a Horrible End.

BOILED TO DEATH BY FANATICAL MOB.

Awful Tortures Are Practiced on the Wife of the Diplomat and Legation Officers Until They Are Relieved by Death.

St. Petersburg, July 11 (via Paris, July 14).—The czar has received with great emotion the dreadful details of the catastrophe at Peking. Tears coursed down his majesty's cheeks as he read the cablegram from Admiral Alexeyeff at Port Arthur confirming the horrible details of the assassination of M. de Giers, which merely in form of rumors had already reached Russia. The admiral declares that the Russian envoy was dragged through the streets by the Boxers, insulted, beaten and tortured, and even thrown into a great kettle and boiled to death. Then the remains were thrown to the dogs. While M. de Giers was being disposed of the fanatical mob danced around the cauldron.

Tortured Most Fiercely.

Mme. de Giers, Admiral Alexeyeff's advicees declare, suffered a fate worse than death, and was beaten and tortured with sharp sticks until life was extinct. The legation officials are said to have been tortured fiendishly until death ended their sufferings. M. de Giers and his legation officials resisted desperately, and his brave body-guard killed many of the attacking mob. In the midst of his tortures the envoy is said to have heroically proclaimed his faith in Christianity, encouraged by the wife who so soon shared his martyrdom.

The announcement of this intelligence to the relatives of the Russian martyrs in China was accompanied by heartrending scenes. Count Lamsdorf received the friends of the murdered ones at the foreign office and unfolded to them the tragic story. The scenes of frenzied terror and grief that followed were unspeakable. The building of the foreign office was besieged by an excited throng and the whole of St. Petersburg is full of lamentation.

Immediately upon the receipt of Admiral Alexeyeff's dispatch the czar ordered the cabinet and council of state to go into session at once.

Says All Are Slain.

London, July 14.—A news agency report says that an official message received in London states that all the foreigners in Peking were murdered July 6.

Though there does not appear to be at this hour any justification for the statement that official confirmation has been received here of the massacre of the international colony at Peking, it is hardly doubted that such confirmation will be the outcome of the present suspense.

To Send More Troops.

Lord Salisbury presided at a lengthy cabinet meeting Friday afternoon, at which it is understood important decisions in regard to China were reached, and that already instructions have been sent to Simla to prepare another division, consisting of four British and four Indian regiments, with their complements of artillery, for service in China.

Discouraging Cable from Goodnow.

Washington, July 14.—The department of state has received a dispatch from Consul-General Goodnow at Shanghai, saying that the governor of Shantung wires that the Boxers and soldiers were bombarding the legations for a final attack on the 7th of July. He is extremely anxious for the safety of the ministers and friendly Chinese in Peking. The consul adds that fears of the worst are generally entertained.

The short cablegram received from Consul-General Goodnow at Shanghai terribly depressed the officials here. All along they have suspected that the various communications received from Chinese forces in Shanghai have been preparing the way for the announcement of the extermination of the foreign ministers and their wives, children, attaches, dependents and guards. Therefore, the state department, which has all along been hopeful of the ultimate rescue of the ministers at Peking, has now joined European chancelleries in the belief that they have all been killed.

Confirms Goodnow's Dispatch.

London, July 14.—A telegram received at the office of the Chinese imperial maritime customs in London from the governor of Shantung is identical with United States Consul Goodnow's report of the bombardment of the legations July 7. The officials here regard the dispatch as leaving little room to hope the legations have survived.

Rescues Prince Ching.

London, July 14.—A dispatch from Shanghai says: "The viceroy of Fuhkien has received dispatches from Peking, dated July 7, announcing that Gen. Nieh, with 9,000 men, has reached there from Lutai by making a long detour to the north. He met and defeated Prince Tuan's army and rescued Prince Ching, but lost 2,500 men in the operation. Gen. Nieh is now trying to rescue Gen. Yung-Lu and thus save what may be left of the legations in Peking. Nieh is favorable to the foreigners."

May Be Sent Home.

Washington, July 14.—Wu Ting Fang, the Chinese minister in Washington, may be given his passport for saying the nations of the world have sacrificed their diplomats in Peking for the purpose of forcing a crisis that would lead to the dismemberment of China.

To Reach Cenger If Alive.

Washington, July 14.—The Chinese minister, Mr. Wu, has undertaken to get through a cipher cable message.

from Secretary Hay to United States Minister Conger at Peking and to have the answer brought back if Mr. Conger is alive. The message was prepared by Secretary Hay and its contents are unknown to anyone save him. It was sent to Shanghai Wednesday with explicit instructions from Minister Wu to spare no efforts or expense to get it into the hands of Mr. Conger.

France Makes a Demand.

Paris, July 14.—The Chinese minister has communicated to M. Delcasse, the minister of foreign affairs, an imperial edict, dated June 29. To this M. Delcasse has replied that since the Chinese government had the means to communicate with its representatives abroad, it ought to guarantee communications between the foreign powers and their representatives at Peking, and he has therefore charged the Chinese minister to transmit a telegram to M. Pichon, the French minister to China.

Will Stay in Canton.

London, July 14.—The scanty cable dispatches add nothing to the knowledge in London of the Chinese situation. It is stated positively from Canton that Li Hung Chang will remain there until the allied troops have defeated Prince Tuan's forces, and will then go north to lend his powerful aid in arranging terms of peace, cooperating with Prince Ching, Yung Lu and the other pro-foreign viceroys. For the present Li Hung Chang considers that he can best control and direct the viceroys from Canton, and also keep in check the turbulent province of Kwang Tung.

All the foreigners and missionaries have evacuated Wen Chau, and have arrived at Ningpo. Large bodies of Boxers appeared at Wen Chau and threatened to exterminate the foreigners and Christians. They also distributed banners, badges and inflammatory anti-foreign appeals.

The Fighting at Tientsin.

The Tientsin correspondent of the Express, telegraphing under date of July 9, asserts that the Chinese are daily driving in the allies. They have mounted, says the correspondent, 12 fresh guns in advantageous positions, with which they are sweeping the streets of the foreign settlement, the incessant fire rendering position after position quite untenable.

The Daily Mail's St. Petersburg correspondent says that in the last six hours' battle outside of Tientsin the Cossacks captured six Krupp guns and killed numbers of fleeing Boxers. The Chinese lost 3,000 killed, including Gen. Kek.

No News from Remey.

Washington, July 14.—Secretary Long stated at a late hour Friday night that he had not received a word during the day or evening from Admiral Remey, in command of the Asiatic station, and now in Chinese waters. The fact that the admiral has not made any report of the conditions said to exist in Peking and the reported murder of the ministers the secretary regards as a hopeful sign, as he inclines to the opinion that had any finality occurred in the capital some word or rumor of it might have found its way to Tientsin or Taku.

PLATFORM OF TEACHERS.

Resolutions Adopted at the Closing Session of National Educational Convention.

Charleston, S. C., July 14.—The school men and teachers of the National Educational association issued their declaration of principles Friday night at the closing session of the convention.

In the declaration, which forms the platform of the association, are the recommendations of the college presidents, school superintendents and teachers upon all prominent school questions under public discussion.

It contains their demand for the extension of the school system to the islands and for the raising of the bureau of education to the position of a department equal to that of the department of labor, if not to that of a cabinet office.

The recommendations were that the bureau of education thus raised to a department standing in the federal government be given direct charge of schools in Alaska, Cuba, Porto Rico and the Philippines, and that it be enabled to make provisions for the education of white children in the Indian territory.

The resolutions declared against a tendency of the rich to have their children educated outside of the public schools and stated that any movement to conduct the schools simply for the poor or the "less well to do" was directed against the interests of common education.

Reciprocity with Germany.

Washington, July 14.—The newly signed reciprocity arrangement between the United States and Germany will be proclaimed to-day. The articles upon which Germany secures a reduction of duties have been enumerated already, namely, still wines, paintings and statuary. The amount of the reductions in each case is fixed in the Dingley act. In return, the United States secures the most favored nation treatment, or, in other words, the minimum tariff rates on articles exported to Germany.

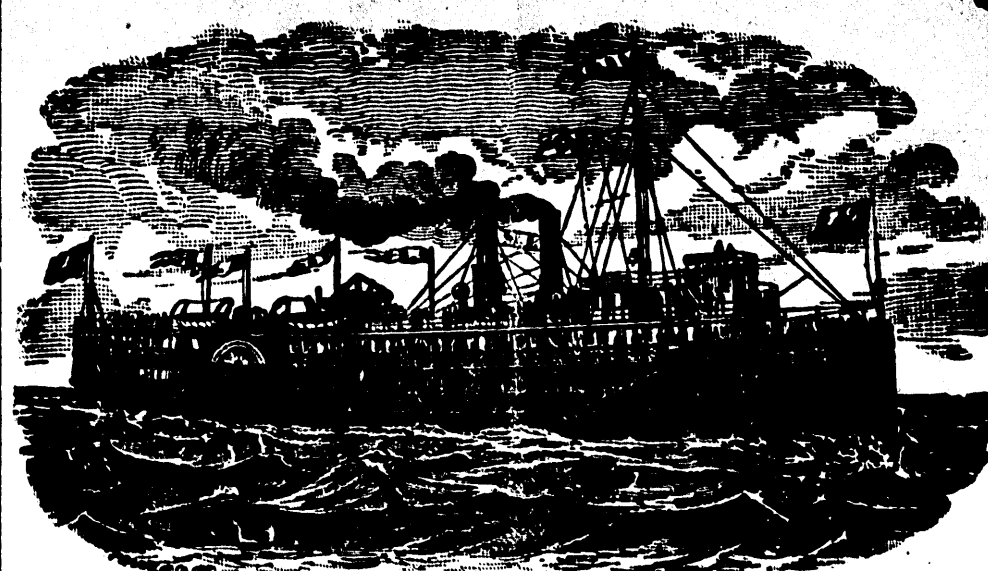

Severe Storm at Dubuque.

Dubuque, Ia., July 14.—A terrific rain and electric storm swept over the city in the morning. The rainfall was 1.72 inches in less than three hours. Nellie L. McQuillan, aged 16, was struck and killed by lightning while asleep. The station of the Fourth Street Incline railway was struck and shattered. It is believed great damage was done in the country.

WINE OF CARDUI

Woman Knows Woman.

Zurich, Kan., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.
MRS. V. M. BOISVERT.

Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps

are practically annihilated by the ocean cables and land telegraph systems which now belt the circumference of Old Earth in so many different directions. "Foreign parts" are no longer foreign in the old meaning of the term. Europe, Africa, Asia, are "next door" to us. What happens there to-day we know to-morrow—if we read THE CHICAGO RECORD, whose Special Cable Correspondents are located in every important city in the world outside of the United States. No other American newspaper ever attempted so extensive a service; and it is supplemented by the regular foreign news service of The Associated Press. For accurate intelligence of the stirring events which are shaking the nations—of wars and rumors of wars—of the threatening dissolution of old governments and the establishment of new—of the onward sweep of the race in all parts of the world—the one medium of the most satisfactory information is the enterprising, "up-to-date" American newspaper, THE CHICAGO RECORD.

THIEVES ARE GETTING THICK

Made Raid at Sister Lakes Last Evening.

Robbed the Postoffice of Stamps and Cash.

Thieves and burglars are getting very thick and their nerve is becoming so marked that Jesse James would be compelled to take a back seat in the congregation of Berrien county burglars.

The daylight robbery of Enders & Young's store yesterday, was without a parallel in this city, the thief entering in daylight, walking to the silk

shelves and sorting out some of the best patterns put them in a grip and deliberately walked out of the store.

Last night the post office and store of J. W. Butler at Sister Lakes was robbed and stamps and money to the amount of \$97 was stolen.

The officers will no doubt organize a systematic net through which no burglar can get away.

BIG MINSTREL CO.

Professional Will Organize in Benton Harbor.

The Hotel Benton is entertaining L. S. Johnson, one of the best known theatrical managers in the United States. While Mr. Johnson is here to rusticate he is also busy with an enterprise which will be known all over the world. For several years Mr. Johnson was the manager of John Griffith, who made such a decided success of Faust, but this year he will embark with a minstrel company second to none. He is making this city his headquarters and securing the best artists to be obtained for his big company. Among them is the famous Billie Rice, who has the honor of receiving a bouquet from the prince of Wales. The whole cast is made up of men of the Billie Rice stamp.

The company will travel in their own private car and will include a fine band and orchestra, a troop of imperial Japanese and every new feature available.

Benton Harbor theatre-goers will have the pleasure of seeing this company. They open in Chicago August 25 and will appear here the night following, August 27.

FUNERAL OF ALLEN BRUNSON.

Will Be One of the Largest in the History of the City.

The funeral of the late Allen Brunson will be one of the largest ever held in this city. The members of the Rebecca lodge are requested to meet at the home of Mrs. E. B. Kelley, 176 Pipestone street, at 1:30 o'clock for the purpose of attending in a body.

All members of the I. O. O. F. are requested to meet at their hall tomorrow at 1 o'clock to attend in a body the funeral services of the late Allen Brunson, which will be held at the residence at 2 o'clock. After the services they will march to the Big Four depot, where a special train will be provided to convey them to Crystal Springs cemetery. They cordially invite all who desire to go to accompany them. The round trip will be 25 cents.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by Lowe & Witherspoon, druggists.

Bicycle Notice.

Persons wishing to get wheels from the Benton Harbor bicycle works please call before 9:30 this evening (Saturday) as the store will be closed from that time until 8:30 Monday morning. A. F. SCHOELTZ.

Two boys wading in the water near the Grand hotel at Mackinac, found a minnow pail containing the head of a man. There was great excitement for a time, but it was finally decided that the affair was a trick performed by a medical student. The head had been severed from the body by someone who understood the business.

There appears to be an epidemic of appendicitis and the university hospital at Ann Arbor is crowded with patients suffering from this disease.

MELONS ARE RIPE.

First Shipment of the Year Last Evening.

The steamer Lawrence of the People's Transit company carried the first melons of the season last night. The melons were of the "Gem" variety from the farm of Otto Mosher of Bainbridge. The consignment was shipped to Seaford & Co., of Milwaukee.

This is the earliest known melon shipment from any Michigan port any year. The berry shipment was fair and prices were on the advance. Reds reached \$1.20 per case.

HUMANS WILL FLY.

Believed That Problem of Air Navigation Has Been Solved.

Count Zeppelin's Airship Said to Have Traveled Successfully Thirty-Five Miles—Remarkable Maneuvers.

Count Zeppelin's experimental trip the other day with his airship from Friedrichshafen to Immenstadt, Germany, a distance of 35 miles, is attracting the attention of Europe, but it is difficult to ascertain how far the success of the airship was demonstrated. The reports received here are not precise, and are not from experts. Count Zeppelin is said to have been fully satisfied, but he is represented as not intending to make another trial for two months.

It is claimed that the steering apparatus worked perfectly until the end of the trial, when one of the wires of the steering ropes broke or became entangled in the gear, compelling the navigators to descend. It is said that in descending the airship was successfully guided to an anchored pontoon, on which it alighted and was towed back to Friedrichshafen. According to report, while it was in the air at a great height Count Zeppelin headed the vessel against the wind and caused it to perform various evolutions, once describing a huge eight, which astonished the spectators below. The force of the wind was then 20 feet a second. At a height of 1,200 feet the airship covered five miles and a quarter in 17½ minutes.

One correspondent at Constance quotes an anonymous scientist of European reputation as saying that the trial was eminently successful, and clearly demonstrated the possibility of guiding balloons. The airship is admittedly imperfect, but it proves beyond doubt that Count Zeppelin possesses the key of the mystery, and a new era of aerial locomotion has begun.

German military aeronauts who watched the experiment officially are also credited with being much satisfied, but none has published his views.

SURVEYOR JUST IN HIS TEENS.

Missouri Boy of Thirteen Years Acting as His Father's Assistant.

Nevada, Mo., has the youngest county official in the United States. He is Douglas Wood, the 13-year-old son of County Surveyor W. H. Woods, says the St. Joseph Gazette. The lad has been appointed deputy surveyor of Vernon county, and has taken the oath of office the same as a full-grown man. Deputy Surveyor Wood, although just in his teens, has been interested in surveying since he was old enough to know what it meant. His father, who is an engineer and also ex-officio bridge commissioner of Vernon county, assisted the lad in his spare moments, and as a result Douglas became an expert for one of his years.

The lad has been a constant attendant at the Nevada Mo., schools, and after his studies spent much of his time in his father's office poring over the maps and charts and practicing with the surveying instruments. During vacation his father frequently took him on his surveying trips and found that instead of being a hindrance the boy actually became a great help to him. When Mr. Wood was elected surveyor of Vernon county he looked around for a deputy. The idea struck him that he could secure no better assistant than his son, and so the lad's commission was made out and signed.

The young surveyor is justly proud of his office and has entered upon his duties with great zeal. Since his appointment he has received requests from various newspapers, magazines and other publications all over the United States asking for his photo, and one of the first taken was sent to the Sunday Star.

Man's Work is Never Done.

RAISE ONE-THIRD OF IT.

Methodists Respond Generously and Promptly to the Bishops' Call for \$20,000,000.

One-third of the \$20,000,000 called for by the bishops of the Methodist Episcopal church as a twentieth century thank offering has been raised already. It is proposed to raise the entire amount this year and next. When the call was first issued many regarded the task as monumental. But the bishops felt they could rely on the Methodists of the country to respond to the call with eagerness, and they have been fully justified in their opinion. Rev. Dr. Edmund M. Mills, secretary of the conference to take charge of the collection of the offering, announced that less than two-thirds of the amount had yet to be subscribed.

The fund will be devoted to several objects. Ten millions will be given for education. The remaining \$10,000,000 will be used for charitable and philanthropic work.

The most generous response has been met with in the case of colleges and seminaries, over \$3,000,000 having been raised by them. The Ohio Wesleyan leads the list with \$505,000. The Syracuse university has had much success in obtaining the \$250,000 which it guaranteed to raise that it will probably double the guarantee.

Barred by the Bishop.

The Catholic bishop of the diocese of Burlington, Vt., recently forbade the erection over a priest's grave in Fairhaven of a monument representing a recumbent figure of the priest in a casket.

Her Electric Spark.

"Mille!"
The young lineman twirled his hat in his hands in an agitated manner and spoke in a voice that seemed to have a tendency to get away from him.

"Mille, the fact is, I—I—there's something I've been wanting to tell you a long time, but I can't seem to fetch it. When you look at me like that, you know, it breaks me all up. I've been coming here so long that I oughtn't to be afraid, I reckon, but—but you know how it is—or maybe you don't, either. I thought I could say it all right when I came in, but you're a little the liveliest wire I ever—I didn't think it would be so hard when I—"

Here he came to a dead stop. "Mille!" he exclaimed, in desperation. "I'm short circuited! I've burned out a fuse!"

"Jerry, are you trying to ask me to marry you?"
"Y—yes!"
"Why, of course I will, you foolish boy!"

And love's current flowed unobstructed again, lighting up with its pure radiance the rose-embowered pathway, that, etc., etc.—Chicago Tribune.

Chicago's Half Mile of Babies.

"Baby Boulevard" is the popular name of the long stretch of broad cement walk which skirts the west edge of Chicago's Lincoln park, from North avenue to Center street. An observant man, walking south, passed 26 baby buggies and met 22; in two buggies were howling twins. A Lincoln park policeman is authority for the statement that there are more babies trundled over this walk than over any other length of sidewalk in the city. He said in one day he checked up 214 fond fathers, doting mothers, nursemaids and small brothers and sisters shoving baby buggies, go-carts, wheeled chairs and perambulators over the cement slabs. "And that was only when I was in that part of the park; maybe five hours during the whole day. That was on a Saturday. On Sundays they come in droves."—Chicago Journal.

Was It a Miracle?

"The marvelous cure of Mrs. Rena J. Stout of Consumption has created intense excitement in Cammack, Ind.," writes Marion Stuart, a leading druggist of Muncie, Ind. She only weighed 90 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 37 pounds in weight and was completely cured. It has cured thousands of hopeless cases, and is positively guaranteed to cure all Throat, Chest and Lung diseases. 50c and \$1.00. Trial bottles 10c at Lowe & Witherspoon's drug store.

The Chicago Tribune

is a newspaper for bright and intelligent people. It is made up to attract people who think. It is not neutral or colorless, constantly trimming in an endeavor to please both sides, but it is independent in the best sense of the word. It has pronounced opinions and is fearless in expressing them, but it is always fair to its opponents.

Matters of national or vital public interest get more space in THE TRIBUNE than in any other paper in the West.

For these reasons it is the newspaper that should read during the forthcoming political campaign.

THE TRIBUNE'S financial columns never mislead the public.

Facilities for gathering news, both local and foreign, are far superior to those of any other newspaper in the West.

It presents the news in as fair a way as possible, and lets its readers form their own opinions. While it publishes the most comprehensive articles on all news features, if you are busy the "Summary of THE DAILY TRIBUNE" published daily on the first page gives you briefly all the news of the day within one column.

Its sporting news is always the best, and its Sunday Pink Sporting Section is better than any sporting paper in the country.

It is the "clearest" daily printed in the West.

The regular early deliveries of fruit which we are making our shipments consist of our own produce from the Chicago market have earned many kind words of commendation from our patrons. Just ask your neighbor about it and our line and that we are devoting our energies especially to the local fruit trade, that we turn neither to the right nor left but go direct from our dock at Benton Harbor to the best fruit dealers in Chicago, and that our service is unequalled for the use of the growers who desire to sell their fruit on the morning market. We solicit your business.

WILL NOT NOMINATE.
A Less Active Part to Be Taken by the Gold Democrats.

WILL HAVE NO NATIONAL TICKET.
Chairman Bryan Explains at Length the Reasons for the Decision—Republican Leaders in Conference at Cleveland.

New York, July 14.—A special to the Times from Washington says:
"The gold democrats will not put a ticket in the field this year," said W. D. Bynum, of Indiana, chairman of the gold democratic executive committee in 1898. "We cannot get our electors on the official ballot in New York because no votes were cast for the party candidate for governor in 1898, and the state law requires that a certain number of votes shall have been cast for state officers in the preceding election before the nominees of any party can go on the official ballot in the pending contest. Our party organization in New York was abandoned two years ago, members of our party voting other tickets."
"The only way we can have our candidates for electors put on the official ballot is by petition of a certain number of voters in each county, an exceedingly difficult thing to do in the present case, as the members of the gold democratic party have affiliated themselves with one or the other of the old parties on the new issue. New York is the one state where our ticket might do the republicans some good, and if we cannot get in on the official ballot there is little use of nominating a national ticket. The new Australian ballot laws in other states also operate against independent movements."

Date Suits Bryan.
Lincoln, Neb., July 14.—The date, August 8, on which he is to receive official notification of his nomination by the democrats is satisfactory to Mr. Bryan. It is doubtful if he will leave Lincoln much before that time, though he does not himself know just what his programme will be. He does not, however, expect to make any speeches in advance of his notification.

AN IMPORTANT CONFERENCE.
Republican Leaders Meet at Cleveland—Executive Committee Named.
Cleveland, O., July 14.—An important political conference attended by a number of prominent republican leaders was held at Senator Hanna's office here Friday. The meeting was called by Mr. Hanna to discuss and decide upon the personnel of the new executive committee, and to name a secretary of the national committee to succeed Gen. Charles F. Dick.
Before the conference closes it is probable that a member of the national committee to fill the vacancy caused by the resignation of George B. Cox, of Ohio, will be chosen.
Among those present at the conference were Chairman Hanna, Cornelius N. Bliss, Perry S. Heath, Charles F. Dick, Henry C. Payne, Charles Dawes, Myron T. Herrick, R. C. Kerens, Graham Stuart, M. B. Scott, Harry S. New and Frederick Gibbs.
At noon Senator Hanna announced that the following had been chosen as members of the national executive committee:
Graeme Stewart, Illinois; Henry C. Payne, Wisconsin; Richard C. Kerens, Michigan; J. H. Mendenhall, Maine; M. B. Scott, West Virginia; Frederick S. Gibbs, New York; Franklin Murphy, New Jersey; Myron T. Herrick, Ohio; Harry S. New, Indiana.
Chairman M. A. Hanna, Secretary, Perry S. Heath, Treasurer, Cornelius N. Bliss.
Gen. Charles F. Dick's resignation as secretary of the national republican committee was received and accepted. Messrs. Hanna, Heath and Payne were named as a committee to draft resolutions concerning the resignation of Gen. Dick. Mr. Hanna stated that the personnel of an advisory committee was under consideration, but that it would not be announced for ten days or two weeks. It was also said that all of the members of the old national committee of 1896 requested President McKinley to consent to the resignation of Mr. Heath as first assistant postmaster general in order that he might become the secretary of the national committee. The president, it was added, strongly demurred to this proposition until Thursday, when he finally gave his consent.
Mr. Heath will tender his resignation to the president in about a week or ten days.

The Young Baptists.
Cincinnati, July 14.—Interesting papers were read and addresses delivered at the three sessions of the Baptist Young People's union on Friday. Officers were elected, John H. Chapman, of Illinois, being chosen for another term as president. Banners were awarded as follows: For Bible readings, to Oakland church, Pittsburgh; for sacred literature, to the Fourth Baptist church, of Minneapolis; for conquest missionary course, to Delavan, Wis.; for general proficiency, to Lodi, Wis.

Enormous Wheat Yield.
Minneapolis, Minn., July 14.—H. V. Jones, in a conservative review of the crop situation in the northwest, printed in the Journal, after personal inspection of the fields, predicts that the yield of wheat in the three spring wheat states of Minnesota and North and South Dakota, will at the very least reach 135,000,000 bushels, as against 210,000,000 last year, and that with favorable weather during the ensuing four weeks the yield will reach 150,000,000 bushels.

WILL GROW BETTER.
Many indications of improvement in the General Trade Situation Are Reported.

New York, July 14.—Bradstreet's says: "While trade is still of only midsummer volume, the beginnings of improvement in demand are apparently becoming visible. The improvement is still one of tone, rather than of actual demand, but with, as seems probable, a yield of 540,000,000 bushels of wheat, a next to record-breaking yield of corn and a very large production of oats, the western crop situation contains many encouraging features. The southern cotton crop has undoubtedly suffered, and the condition is unprecedentedly low for this season of the year, but the acreage planted was a large one, and prices are so much higher that a satisfactory financial return is confidently looked for. In addition, railroad earnings point to the maintenance of the business of the country at a volume in excess of last year. The effort of the big iron and steel concerns to control prices, if really made, has proven abortive, and another wholesale slashing of quotations is to be reported. Production, however, is falling off, and increases of furnace stock, though considerable, would seem small if renewed activity occurred. The industrial situation is rather better, as a result of agreements upon wages by a number of iron and steel manufacturing concerns and their employees. Lower prices for lumber are apparently inducing more activity in building, though how much is due to this, or how much to the settlement of labor disturbances, is hard to measure."

R. G. Dun & Co., in their weekly review of trade, say: "The great increase in failures to \$100,550,121 in the first half of 1900, against \$94,661,661 last year, and especially to \$43,837,079 in the second quarter against \$21,622,635 last year, gave no occasion for diligent search, failure returns will be worth nothing. But to-day it is shown that 31 banking failures for \$25,822,662, against 30 last year for \$7,601,728, accounted for much of the difference; that 255 bankruptcies in failures for \$22,122,355, against 145 last year for only \$2,225,155, accounted for another part, and that in building and lumber working and trade other large failures distinctly connected with those in the real estate, explain much more of the difference between last year than this. In these and much less important changes in a few other lines are seen substantially all the commercial disasters as yet resulting from the amazing rise in prices last year, followed by weary but largely successful efforts during the past few months to get back the normal state of business. When this is seen and the remarkable steadiness in number and size of the great majority of failures not for exceptional amounts, there appears ground for some satisfaction that business has been on the whole so soundly conducted under conditions of unusual danger."

"The end of the crop year has brought the usual estimates which command no more confidence than usual. If the country can get out of a crop officially called 547,000,000 bushels, all it wants for food and seed, and 200,000,000 bushels for export, with considerably left over in sight, it is the easy inference that anxiety is needless. There is not evidence yet, and for some time to come cannot be, that injuries sustained have been as great as some suppose, so that alarm is not more necessary than it was last year."

"Failures for the week have been 136 in the United States, against 153 last year and 26 in Canada, against 24 last year."

Will Face the Masses.
Indianapolis, Ind., July 14.—Charles Finley, ex-secretary of state of Kentucky, said Friday that he intends to go back to Kentucky to stand trial for complicity in the murder of W. E. Joel.

A Feathered Weaver.
Of our feathered weavers the Baltimore oriole is undoubtedly the most skillful. He swings his woven hammock at the very extremity of some overhanging branch, often in full view of the passer-by, quite inaccessible to most of his enemies. The beautiful nest is made of any suitable material which the bird happens to find. String, hair, grasses and plant-fibers are often used, but 1 once had the good fortune to find one which was made entirely of silk. The thread had been thrown from the windows of a near-by tape-mill, and Lord Baltimore had been clever enough to take advantage of a rare opportunity. The result was that the lucky fellow provided a very aristocratic home for his mate and prospective family of little ones.—Ernest Harold Haynes, in Woman's Home Companion.

Engineer Runs on

Draw Bridge Too Soon.

A little after 3 o'clock Friday afternoon a peculiar accident happened on the Pere Marquette bridge over the St. Joseph river, which obstructed for several hours all traffic.

A yard engine was pushing a car loaded with soft coal along the truss work leading to the bridge proper. The bridge had just swung in and the engineer of the engine, not able to see the signals of the bridgetenders, presumed the bridge was clean shut.

Consequently he pushed on. The bridge, however, had caught and when the car struck it the car was slung from the track, the coal being spilled in all directions. The tenders were unable to move the bridge for several hours.

Meanwhile the steamer Chicago had arrived from Benton Harbor and was awaiting an opportunity to reach her dock in St. Joseph. The steamer Milwaukee had arrived from Chicago and after discharging its freight was as anxious to get to Benton Harbor as her sister steamer was to reach St. Joseph.

Finally the freight and passengers were changed from one boat to the other, and the Milwaukee returned to Chicago, the Chicago to Benton Harbor.

The damage to the bridge was light. Two ties were broken and a little of the woodwork crushed.

Miss Jennie Jones, Main street, entertained a few friends last evening.

Logan circle No. 11 will have a picnic at the life saving station Tuesday afternoon, to which all friends are invited.

James O'Hara returned from Atlantic City, N. J., this afternoon.

Will Cadwell of Chicago, is the guest of relatives in the city.

Mrs. DeShon from Battle Creek is visiting her daughter, Mrs. John W. Fletcher.

Sheriff E. H. Ferguson is in Chicago today on business.

Guybird, the horse sold by Sheriff Ferguson was shipped last night.

Mr. and Mrs. Chas. W. Black of Hyde Park Farm are visiting in Chicago.

Mrs. J. H. Van Middlesworth, of Grand Rapids, is a guest at the home of Mr. and Mrs. Frank Bracelin, corner of Jones and Main streets.

St. Joseph business men are arranging for a big street car (val to be held in that city the first week in September and judging from the enthusiasm exhibited it will be a howling success. The money is already being subscribed in a quiet way and when the desired amount, \$1,500 is raised a public meeting will be called, committees appointed and active work commenced. It is understood that \$1,000 has already been raised.

Occasionally the mammoth mind of the erudite city editor of the St. Joseph Press wanders from its accustomed rut. From the legitimate field of news, where it is almost a master, it sometimes strolls into the shadowy vales of poetry. During these rather sad and deplorable spells of its city editor the Press takes on much the appearance of a grave stone tablet. In place of "John Smith, of Baroda, is in town" the Press tells its readers that "The egg what's not yet taken to the net is sure to get the biggest lump of gold." If the people of Franklin's time enjoyed lumps of philosophy mixed in their cup of news the times have changed. The daily newspaper is not an old fashioned magazine. No one knows this better than the city editor of the Press. But poetry hath its charms for even the savage mind.

Dear Sir:—Your dyspepsia remedy worked like a charm on me. I have not been troubled for a long time; in fact, I think I am entirely cured. I am glad you have decided to place the remedy on the market for the good it may do others. Add my endorsement to your list and make it as strong as you wish. I send list of R. R. office men, many of whom suffer from the disease on account of close confinement, etc. I think it would be well for you to send your circulars to some of them. Yours in haste,
George Sparks, Auditor.

Miss Helen Ingram, of Chicago, is entertaining a few little friends this afternoon at the home of her grand parents, Mr. and Mrs. Anson Lewis, Summit street, in honor of her seventh birthday.

STRUCK BY LIGHTNING.

The Goddess of Liberty a Bright and Shining Mark for the Electricity of the Heavens.

The Goddess of Liberty has had a lively experience within 24 hours. Twice has the famous statue been struck by lightning. The first bolt struck the right arm of the statue during the big squall the other afternoon. At 11 o'clock the next morning a second bolt struck the head. This occurred shortly after the lightning played havoc with the Standard Oil company's works at Constable Hook. A gang of workmen who were speedily detailed to make an examination of the immense bronze failed to find any material damage.

The right arm, which was first struck, is 42 feet long, its greatest thickness being 12 feet. One of the finger nails attached to this arm is 13 by 10 inches. The other arm and hand holds a tablet 23 feet 7 inches long and 13 feet 7 inches wide, on which is inscribed the words "July 4, 1776." Liberty Island, on which the statue is erected, has several companies of United States regulars, and these view with wonder the fact that lightning should maltreat the statue, especially on the anniversary of Independence day.

The second bolt struck the head square on the crown. The head from chin to cranium is 17 feet 3 inches high and is 10 feet thick from ear to ear. The crash aroused the whole military post, and they were turned out with the expectation of finding the great statue of Bartholdi leveled to the ground.

Charles Long, the superintendent of the ferry company that runs to the island, said:

"The statue is protected by the finest lightning rods ever made. They run from a point above the torch down and below the foundation, a distance of 305 feet, and then lead off to the water of the bay, where they take a circular form and enter a system of piping that is filled with carbon."

"You understand, of course," pursued the lawyer, "what is meant by a 'preponderance of evidence?'"

"Yes, sir," replied the man whom he was examining with reference to his qualifications as a juror.

"Let me have your idea of it, if you please?"

"I understand it, I tell you."

"Well, what is it?"

"Why, anybody can understand that."

"Still I would like to have your definition of it."

"I know what it is, all right. When I tell you I know what a thing is I know it. That's all there is about that."

"Well, what was the question I asked you?"

"You ought to know what that was. If you've forgot your own questions can't try to get me to remember them for you."

"I don't want to hear any more of that kind of talk," interposed the court. "Answer the question addressed to you by the counsel."

"Judge, I did. He asked me if I knew what it was, and I said I did."

"Are you sure you understand what is meant by the term preponderance of evidence?"

"Of course I am, judge."

"Well, let us hear your idea of it."

"It's evidence that's been previously pondered."—Chicago Tribune.

Mint Sauce, Etc.

Mint sauce is the *aigre douce* of Edward I.; blancmange was made of capons or pike boiled to a mash; cabages were eaten "thick with grated bread" by the common people, but for a lord they had to be treated with yolks of eggs, and an equal distinction was observed with pike, which had to be cut up into pieces for ordinary folk, while those of higher degree had it served whole. A favorite dish at the supper parties of the wild Prince Hal was "pondrorage," a mixture of partridges, pork and yolks of eggs, first boiled and then roasted in batter. It was then made into small lumps about the size and shape of apples, and colored to taste. Pork, it may be mentioned, was much used at this time, in proportion to other meats as three to one.—Notes and Queries.

Reaping Rice in Louisiana.

The application of scientific irrigation methods has recently given a new development to rice culture in southwestern Louisiana, as explained in a bulletin of the department of agriculture. Rice requires wet lands, but on such lands harvesting machinery cannot be used. The difficulty has been met by flooding the dry prairie lands during the growth of the rice, and then draining them, by a system of pumps, canals and levees, when the crop is nearly ripe. On the drained lands it is possible to use reapers to harvest the rice; thus the cheap labor employed in foreign rice-growing countries can be met by American machinery.—Youth's Companion.

The regular and early deliveries of fruit which we are making on shipments consigned via our steamer Frank Woods for the Chicago market have earned many kind words of commendation from our patrons. Just ask your neighbor about it and bear in mind that we are devoting our energies especially to the local fruit trade, that we turn neither to the right nor left but go direct from our docks at Benton Harbor to the best fruit dock in Chicago, and that our service is unequalled for the use of the growers who desire to sell their fruit on the morning market. We solicit your business.

The Chicago Tribune

is a newspaper for bright and intelligent people. It is made up to attract people who think. It is not neutral or colorless, constantly striving in an endeavor to please both sides, but it is independent in the best sense of the word. It has pronounced opinions and is fearless in expressing them, but it is always fair to its opponents. Matters of national or vital public interest get more space in THE TRIBUNE than in any other paper in the West. For these reasons it is the newspaper you should read during the forthcoming political campaign. THE TRIBUNE's financial columns never mislead the public. Its facilities for gathering news, both local and foreign, are far superior to those of any other newspaper in the West. It presents the news in as fair a way as possible, and lets its readers form their own opinions. While it publishes the most comprehensive articles on all news features, if you are busy the "Summary of THE DAILY TRIBUNE" published daily on the first page gives you briefly all the news of the day within one column. Its sporting news is always the best, and its Sunday Pink Sporting Section is better than any sporting paper in the country. It is the "cleanest" daily printed in the West.

BOY CUT OFF HIS QUEUE.

Small But Revenged Chicago. **Cle**izen Does Not Wait for the Powers to Act.

That nothing arouses youthful ardor so much as war has been demonstrated so often that it has now become an axiom. For this cause the inhabitants of the opponents of the United States are the enemies of fate to the lads who tramp the streets of Chicago. This has been shown of late in their antagonism to the Chinese because of atrocities committed in and around Peking, says the Chicago Chronicle.

They have made faces at the Celestials, pulled their pig tails and thrown stones through their windows. It remained for a Clark street lad, however, to take summary vengeance on a Chinaman against whom he held a fancied grudge.

Ye Kee is a rotund Chinaman, who lives back of one of the stores that line the east side of Clark. In the afternoon he is in the habit of stretching himself on the little 2x4 porch in the rear of his home for a nap. The other day he lay down without anticipating any untoward incident that might cause him to wish he was in some other country.

Dreams of the flowery kingdom and the delight of seeing his enemies suffer were infesting his brain when a dull thud brought him to a sitting posture. He saw a boy running away with a hatchet in his hand. He grabbed for his queue immediately and found it lying near where his head had rested while he was sleeping. The mischievous lad had clipped the beloved pigtail very near to its base.

Riley's Remorse.

Mrs. Riley—Yis; before me b'y Danny wor taken sick Riley missed his collarbutton an' licked him for shialin' it.

Mrs. Greel—An' did the b'y shiale it?

"Hivin' ferbid! no. Whin Riley took aff his shirt noine weeks affter" the b'y's dith the collar-button rolled out on the floor, an' the thing's prayin' on his moind."—Judge.

Patient—Oh, doctor, no tongue can tell how bad I feel.—Tit-Bits.

Becoming a Mother

Is an ordeal which all women approach with indescribable anxiety and nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy robs confinement of all pain and danger, and insures safety to mother and child. This scientific remedy is a godsend to all women at the time of their most critical ordeal. Not only does MOTHER'S FRIEND carry woman safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at 50c per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., Atlanta, Georgia.

Mother's Friend

The League to Hold a Convention in Indianapolis.

ITS FUTURE COURSE TO BE DECIDED.

Names Suggested as Candidates if a Ticket Is Named—The National Party Convention Also Meets in Indianapolis.

Indianapolis, Ind., Aug. 14.—The congress of the Anti-Imperialist league will be called to order Wednesday morning in Tomlinson hall by Speaker Henderson, of Missouri, and he will introduce ex-Gov. George S. Boutwell, of Massachusetts, who will preside over the meetings. There will be no set programme for the first session. A number of short speeches will be made relative to determining what is the best course to pursue.

Opposes Third Ticket.

Gov. Boutwell is opposed to placing a third ticket in the field, and will use all his influence to prevent the nomination of a third ticket, and likewise the indorsement of Bryan and Stevenson. He believes strong resolutions denouncing imperialism should be adopted and then the meeting should adjourn.

It was thought that Carl Schurz would not be here, because of family affliction, but it is now stated that he will be here positively. Bourke Cockran is also billed for an address. It is also affirmed that Schurz will insist upon an indorsement of Bryan and Stevenson, and that he will be aided in this by Henry U. Johnson, ex-republican congressman from the Richmond (or Sixth Indiana) district. E. C. Howland, of New York, says that the impression in the east is that the anti-imperialists will join in the third ticket movement.

Those who favor a third ticket have suggested the names of Thomas B. Reed, Richard Olney, ex-Gov. Boutwell, of Massachusetts, and J. B. Henderson.

The Indiana Anti-Imperialist league, formed Monday, has about 500 members scattered throughout the state.

The National Party Convention.

Indianapolis, Ind., Aug. 14.—Delegates to the national or third party convention are beginning to arrive. This party originated at the time of the meeting of the gold democratic committee in this city. At that time there was a committee of 11 sent here to confer with the gold committee and urge it to recommend the nomination of a third ticket. Failing in this they issued a call for a national convention to be held in this city August 14 and 15. Previous to this the anti-imperialists had issued a call for a convention to be held in this city August 15 and 16. The members of the national party hope to form an alliance with the anti-imperialists, and they hope that the anti-imperialists will indorse the ticket they nominate. Louis R. Ehrlich, of Colorado, Springs, Col., will be the presiding officer of the convention and Isaac H. Klein, of New York, will be secretary.

Statement Issued.

Monday a conference was held at headquarters, and the following statement issued:

"A mass convention is hereby called to meet at Indianapolis at two p. m., August 14, to nominate or cooperate in the nomination of candidates for president and vice president upon a platform substantially as follows:

"1. The democratic party is conducting an indirect attack upon the institutions of our country. At home it corrupts the public morals by selling public offices and special privileges to the highest contributors to party assets; abroad it wages a wicked war of conquest, in violation of the principles of the declaration of independence.

"2. No man serves well his country who joins in either of these attacks. Party to no end, therefore, but opponents of both, we pledge our honest efforts to the following ends:

"1. Independence and protection to the inhabitants of Cuba, the Philippine Islands, Porto Rico and Hawaii.

"2. A single gold standard and a sound banking system.

"3. The abolition of all special privileges.

"4. A public service based on merit only.

"In pursuance to this call, the mass convention will assemble in the hall on the seventh floor of the Commercial club building at two o'clock this (Tuesday) afternoon.

"This call is addressed to all of those opposed to the candidates and the platforms of the republican and democratic parties. Delegates to the anti-imperialist convention and all citizens are cordially invited.

(Signed) "ISAAC KLEIN, Secretary."

DASH OF CAVALRY HORSES.

Plunge Through the Streets of Jersey City—Train Strikes the Haunch and Eight Are Killed.

New York, Aug. 14.—Speeding at breakneck pace and in the closed order of army maneuvers, a band of cavalry horses charged through the streets of Jersey City Monday night, sent citizens and carriages scurrying from their path, spurred a crowd of hundreds of pursuing men and boys, and galloped over Hackensack bridge into the Harrison and Kearney meadows. In the mad charge eight of the

horses belonged to the Fifth cavalry, and had just arrived from Porto Rico. Twenty-five of the number were confined in one pen at the Central stock yards, kicked down one side of the inclosure and made a break for liberty. The escape was executed so quickly that the troopers were powerless to stop them.

Through the length of Jersey City the band made the running until they reached the bridge over the Hackensack river. There they crossed, and were lost sight of as they disappeared in the Harrison and Kearney meadows. After a run across the meadows the chargers got on the tracks of the Lackawanna railroad. A train came along just as the horses were crossing. The locomotive dashed right into them, scattering them right and left.

Some were thrown in the air, and one landed astride the whistle, where his body was impaled. Some of the horses were captured, but the entire band had not been rounded up at a late hour.

EVENED UP WITH THE DOCTOR

How a Chicago Sandwich Man Brought His Contrary Employer to Terms.

For some months past an elderly man has succeeded in earning his livelihood by promenading the north side of Randolph street clad in a rubber rain coat on which was emblazoned in yellow letters the ability of Dr. Trueblade to remove corns, bunions and warts without pain. During the winter months the aged person found the job to his liking and kept the sidewalks clear of snow by his constant marching to and fro. But with the arrival of the summer hot spell the sandwich man tired of the task and spent most of his time in shady nooks along the line of his beat, says a Chicago exchange.

One day lately the heat became so oppressive that sign bearing grew irksome and the man resolved to strike. After invading the "doctor's" office and satisfying himself that he could not obtain an increase in wages the wearer of the rubber coat sought the outer air, and after turning the rubber coat inside out printed on it the following legend in chalk: "Dr. Trueblade will amputate no more corns until the sandwich man collects money enough to have his bunions eased by Dr. Callous."

Callous is the chiropodist across the street. After reading the inscription he agreed to supply the sandwich man with a linen duster for the warm weather and increase his wages.

RATS DECLARE CIVIL WAR.

Interneine Slaughter Relieves a Chicago Police Station of a Pest.

Another rat story comes from the Twenty-second street police station, reports a Chicago exchange. Not long ago the station was invaded by a colony of rats of various sizes and descriptions and no prisoners were kept in the cells for several days because of the viciousness of the rodents. A number of the officers were bitten while asleep in the dormitory and the pest was the cause of a great deal of trouble.

Lieut. Alcock advertised for cats and a few of the residents in the vicinity gave the services of their house pets to rid the place of the pest. One of the cats was killed and its carcass was found in the basement. The smaller members of the colony were routed, but a number of big gray fellows refused to take orders from the cats and until one day last week did all they could to make life miserable at the station.

Sergt. Carey says that they are all gone now. He declares that they divided themselves into two factions and declared civil war. The squadroom was their battleground and the sergeant says that he witnessed several engagements. After one battle he picked up the bodies of three warriors left dead on the field. The other night he saw five of them run out through the front door and since that time, he says, there has not been a rat in the station.

GOSHEN, ILL.

Genesee Pure Food Co., Leroy, N. Y.: Dear Sirs:—Some days since a package of your GRAIN-O preparation was left at my office. I took it home and gave it a trial, and I have to say I was very much pleased with it as a substitute for coffee. We have always used the best Java and Mocha in our family, but I am free to say I like the GRAIN-O as well as the best coffee I ever drank. Respectfully yours,
